WOMEN IN STEM LEADERSHIP INTERNATIONAL CONFERENCE

ABOUT US

Women in STEM Leadership (WISL) is the premier organization that empowers women like you with the support, resources and tools needed to elevate your career and become an agent of change in the STEM industry. We are a network of like-minded women who are genuinely invested in helping you reach your potential.

Women in STEM Leadership (WISL) was founded with the aim of advancing women into leadership roles in the male dominated field of Science, Technology, Engineering and Mathematics (STEM) from the classroom to the boardroom. WISL meets its vision through a variety of programs such as leadership development, coaching, networking and mentoring opportunities for women at all levels of their careers.

OUR MISSION

The mission of Women in STEM Leadership is to provide opportunities for professional women in science, technology, engineering, and mathematics (STEM) to advance into leadership roles in the male dominated STEM ecosystem.

To do this, we are working to:

- Address industry workforce shortages and diversity challenges by providing awareness and education and advocating for women in STEM.
- Create more career and leadership opportunities for women in STEM by providing professional development opportunities.
- Connect professional women in STEM through networking and mentorship opportunities.

The inaugural Women in STEM Leadership conference is part of our commitment to reduce barriers and provide professional development opportunities for women in STEM at all stages of their careers.

WOMEN IN STEM LEADERSHIP INTERNATIONAL CONFERENCE

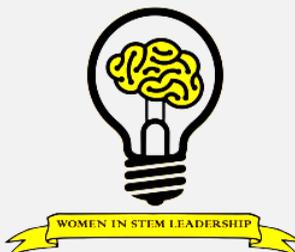

ABOUT THE CONFERENCE

This year's conference theme is *"Take Your Seat at the Table and make sure Your Voice is Heard."*

This two-day conference is designed to speak to every woman. Attendees of the Women in STEM Leadership International Conference will have the opportunity to develop their personal and professional identity, build networks of support to help them achieve their goals, connect and network with peers, exchange ideas while having a good time.

The WISL annual conference is not just another conference. It is a movement to build capacity, to nurture talent, to create community, and to empower women and girls in STEM fields to reach their full potential and thrive as leaders in the male dominated fields of STEM.

We are thrilled to have various speakers from different backgrounds. Beyond the speaker sessions, the Women in STEM Leadership International Conference will celebrate the power of individual women and their accomplishments and successes in leadership and entrepreneurship.

WOMEN IN STEM LEADERSHIP INTERNATIONAL CONFERENCE

WHY ATTEND?

Attendees of the Women in STEM Leadership Conference will have the opportunity to develop their personal and professional identity, build networks of support to help them achieve their goals, and have a great time while doing it!

NETWORK

Build your network! Whether it's during the conference's breakout sessions or the various networking opportunities offered throughout the day, make new connections and find potential mentors and collaborators.

GAIN KNOWLEDGE

The conference theme " *Take Your Seat at the Table and make sure Your Voice is Heard*" lends itself to a number of different presentation topics and styles to support attendees in their personal and professional development.

BE INSPIRED

Attending the Women in STEM Leadership Conference is a great way for attendees to discover new ideas, exciting projects, and meaningful partnerships to inspire their journey.

NEW OPPORTUNITIES

Whether you're looking for something new or wanting to learn more about a topic of interest, seek new opportunities available to professional women in STEM.
